## 01 PROFILE

Django developer with 1+ years of experience. I'm working with **Django, DRF** as back-end and **HTML, CSS, JavaScript, jQuery, Bootstrap** as front-end technology. Recently I'm learning **React** and **Mongo DB**. I enjoy always learning new technologies and staying up-to-date on current trends in web development.

## 03 WORKING HISTORY

Jul 2022 — May 2022

Rangpur

### Employee Management System

It's a Django-based employee management system. Admin can handle employee by this be professionally. For building this project I've used **Django** as back end technology and **HTML, CSS** and **Bootstrap** as a front end technology. And also used some specific topic in Django such as **authentication, message framework, admin lte3 dashboard, static file handling, template tags and filter.**

Jan 2022 — Feb 2022

Rangpur

### Tuition Management System

For teacher's and student it's a suitable platform for finding a tuition/tutor. It's completely **Django-based** website. Yet, for attracting user I've just used some of front end technology like as **HTML, CSS** and **Bootstrap**. Also used here some of important topic in **Django** such as

timezone, image handling, sending email, PDF output, query, filtering, CB generic views, like-comment-share, crispy-forms, notification.

## Multi User Todo

All the human are important to use their time schedule every effectively. In this perspective, I've built multi-user ToDo website. by using this site, we can easily maintain our time productively. For creating , I used Django, **HTML, CSS, Bootstrap** and **SQLite** as front-end and back-end technology. I've used some of specific key-point for example - **handling multiple user, CRUD API, Decorators, template tags, template inheritance, Model Form.**

Mar 2022 — Mar 2022

Rangpur
